

State of Progress of the Revision of the LCP BREF

Jean-Guy Bartaire TFTEI Co-Chair

TFTEI Meeting Brussels 25 June 2015

1

Final TWG Meeting

- The final Meeting took place in Seville From 1st to 9th of June 2015.
- The outcome are stricter ELV's for LCP's than in the IED when BAT conclusions will be adopted and implemented.
- The Meeting was both technical and political.
- Clear wish to target coal, lignite, Hg and HFO.
- Around 50 split views were expressed by stakeholders and many issues were not discussed and registered as leftovers.
- No cost consideration.

TFTEI Meeting Brussels 25 June 2015

2

Next Steps

- All stakeholders are invited to comment their split views before the end of July.
- Leftovers will be discussed in a Web Conf. scheduled on 1 or 2 July.
- **December 2015/January 2016** TWG consultation on the pre-final draft revised LCP BREF prior to the submission of the final draft revised LCP BREF to the IED Article 13 Forum.

Next Steps

- **Second quarter of 2016** IED Article 13 Forum Meeting
- **End of 2016 or beginning 2017** adoption of BAT Conclusions in Article 75 Committee and publication of BAT conclusions.
- **BAT Conclusions to be implemented before 2020/2021.**
