

Expert Group on Techno-economic Issues meeting

Warsaw 22nd of November 2011

Introductory speech

Jérôme BOUTANG
Executive Director

Centre Interprofessionnel Technique d'Etudes de la Pollution Atmosphérique
Interprofessional Technical Centre on Atmospheric Pollution Studies

EGTEI: almost 10 years!

- Extensive and key information on costs and performances of abatement techniques,
- In order to reduce emissions into the air from stationary sources.

EGTEI: co-chaired by France and Italy

- Dedicated experts from national administrations and from the industry
- A special thanks to the dedication and enthusiasm of our two Co-chairmen!
- As well as to all parties financing EGTEI activities

Private association with a status of non-profit making, founded in 1961

Missions : to know, to coordinate, to promote, to carry-out, and to diffuse reports, surveys and scientific and technical research concerning atmospheric pollution

Budget : ~2.3 M€

Team : 24 people from which 19 engineers

Resources : French government ~65%,
Industrial and International bodies ~35%

Location : 7 cité Paradis (75010 Paris) FRANCE

Our members:

Mainly Industry

CITEPA members

Core business

- Characterisation of emissions from all types of sources,
 - Techniques to reduce emissions,
 - Cost of measures
 - Air pollution regulations,
 - Forecasts, planning, strategy,
-
- Consultancy,
 - Information,
 - Training.

Applications

- Emission inventories, tools, trainings,
 - Forward studies,
 - Technico-economic reports (assistance in defining strategy, decision making, market research, etc.),
 - Technical reports (interpretation, enforcement, benchmarking, guides, assistance, expert groups)
-
- Technical expertise, diagnosis, audits, carbon footprints, etc.,
 - Specific training sessions,
 - Publications, workshops, website, etc.,

Reference pole

CITEPA

- ISO 9001 Certification on inventories and reports
- National reference centre on Air emissions charged by MEDDTL (ministry of ecology) to conduct national emission inventories for the United Nations (UNFCCC and UNECE/LRTAP/EMEP/TFEIP) and the European Commission (NEC, GIC, GHG MM)
- National Focal Point appointed by MEDDTL for emissions within the Task Force on Integrated Assessment of Environment (UNECE/LRTAP/EMEP/TFIAM)
- Secretary of EGTEI Group (UNECE/LRATP/WGSR)
- Several CITEPA engineers have national and international recognition, are CCNUCC reviewers and participate in various expert groups

CITEPA and KIT

- Egteii secretary
- Prepare key documents discussed by all Egteii experts
 - e.g. 1 Egteii revised Annexes to Gothenburg Protocol, to set emissions ceiling options
 - e.g. 2 Emission reduction technology guidance document.

Spreading EGTEI activities to other countries

- Up-dating costs within Large Combustion Plants
 - BREF revision
- To define emerging technologies
 - Cf. ADEME
- Actions towards the implementation of the Convention in Eastern Europe, the Caucasus and Central Asia
 - Pilot plant study
- Russian translation of the guidance document

Thank you for your attention
And have a fruitful meeting
