

Proposals for EGTEI (TFTEI), TFHM – EECCA CG cooperation in 2015-2016

- BAT seminar – theory AND PRACTICE - for EU/EECCA in 2015 (EGTEI, TFHM, IPTS, EECCA Coordinating Group);
- Guidelines and practicalities of VOC emission calculation for EECCA (individual VOC conversion into organic carbon/VOC total quantity) under the Gothenburg protocol;
- Seeking synergies between CLRTAP HM Protocol and the Minamata Convention utilizing the momentum: capacity-building in mercury control, monitoring, accounting and abatement approaches
