

# TFIAM-TFTEI cooperation

10<sup>th</sup> TFTEI Annual Meeting October 17 2024

Stefan Åström, co-chair TFIAM

# Most items have to stand back a bit

- Contributions to Gothenburg protocol review revision takes all time for now (work plan item 1.1.1.3.0 & 1.1.1.3.1)
- Following items are proposals for future discussions

# TFIAM workplan items of relevance

Workplan Item	Activity Description	Expected Outcome	Lead Bodies	Resource Requirements
1.2.2	Stimulate national integrated assessment capacity in EECCA, Türkiye and West Balkan countries	Application of updated GAINS multiscale model/EMEP/uEMEP Workshop on GAINS scenarios	MSC-W and CIAM with CEIP, TFIAM, TFTEI	
2.1.7	Analyse implications of NH <sub>3</sub> as energy carrier as part of decarbonization strategies, including possible emissions of NH <sub>3</sub> , N <sub>2</sub> O and NO <sub>x</sub> , and possible interactions with international N market prices	Information note submitted to WGSR	TFRN in cooperation with TFIAM and TFTEI	Subject to availability of resources
2.2.1	Promotion of guidance documents, including those recently adopted	Explore opportunities to promote guidance documents, including those recently adopted within and beyond ECE region	TFRN, TFIAM, TFTEI, TFICAP	
2.2.3	Development of guidance document on non-technical and structural measures	Draft guidance document submitted to Executive Body for adoption	TFIAM, TFRN, TFTEI	

# TFIAM workplan items of relevance

Workplan Item	Activity Description	Expected Outcome	Lead Bodies	Resource Requirements
1.2.2	Stimulate national integrated assessment capacity in EECCA, Türkiye and West Balkan countries	Application of updated GAINS multiscale model/EMEP/uEMEP Workshop on GAINS scenarios	MSC-W and CIAM with CEIP, TFIAM, TFTEI	

To be coordinated.

# TFIAM workplan items of relevance

Workplan Item	Activity Description	Expected Outcome	Lead Bodies	Resource Requirements
2.1.7	Analyse implications of NH <sub>3</sub> as energy carrier as part of decarbonization strategies, including possible emissions of NH <sub>3</sub> , N <sub>2</sub> O and NO <sub>x</sub> , and possible interactions with international N market prices	Information note submitted to WGSR	TFRN in cooperation with TFIAM and TFTEI	Subject to availability of resources

- TFRN have some experts drafting texts, much uncertainty remains.
- Can TFIAM & TFTEI passively collect evidence as it evolves.

# TFIAM workplan items of relevance

Workplan Item	Activity Description	Expected Outcome	Lead Bodies	Resource Requirements
2.2.1	Promotion of guidance documents, including those recently adopted	Explore opportunities to promote guidance documents, including those recently adopted within and beyond ECE region	TFRN, TFIAM, TFTEI, TFICAP	
2.2.3	Development of guidance document on non-technical and structural measures	Draft guidance document submitted to Executive Body for adoption	TFIAM, TFRN, TFTEI	

- NTM guidance to be presented to EB, then available for promotion,
- Communication of health effect report (1.1.1.32), can be coordinated with EU projects,
- EPCAC guidance document will be available for promotion,
